

Heidi Poelman, MA

I am trained as Master in Translation Dutch-French-English (MA, Ghent University, 1990). After a short career in internal sales (textile and toys) I started working for KAHO Sint-Lieven, the predecessor of Odisee, in 1995.

After several years in the Marketing and Communications department, I was ready for a new challenge. This brought me to the Lifelong Learning Department in 2012. I am the course coordinator of the Postgraduate Courses Clinical Animal Behaviourist, Veterinary Behaviourist and Animal Behaviour Technician. I am also responsible for the website and social media of Odisee Advanced Education and Preventie & Milieu Academy. As a policy assistant I work on different projects in our team.
